Actives Profile Fall 2016

This issue contains a profile for the actives from the Fall of 2016. We focus solely on presenting the actives to the alumni, so we know who is currently in the chapter. We have felt this is important to do because of the state of the chapter. We are all invested in the continued thriving of the chapter and we need to know the guys who are active in it.

Also note, this edition is only available to paid/active alumni. It is also not publicly available on our website due to the fact that it contains personal details about the actives. Please be mindful of that when you are reading it and keep this information private the same as we did when we were all actives.

Enjoy!

Austin McGhee

Junior: Civil Engineering Technology

Positions held: President 2015-2016

Associate class: Beta Iota (Fall 2014) VP of membership

I have lived in Mooresville, Indiana most my life. It is just south-west of Indianapolis. I chose Indiana State because it offered engineering technology degrees and it was relatively close to home. After college I would like to work with the state and help improve the infrastructure of Indiana.

When I came to Indiana State I knew just a handful of people. I ran into a familiar face from high school, Connor Lynn, and he introduced me to several people and invited me over to the Sig Tau house. I had no clue what fraternities really did at the time but I figured it would be a great way to meet people so I made the journey down 6th street. It wasn't long after that when I signed my bid. I had a lot of mixed feelings about joining but everyone treated me like family and I was always at the house so I figured it would be a good idea. I'm glad I did because I have made several friendships that will last a lifetime and I have gained a lot of leadership skills.

My favorite memory of being in Sigma Tau Gamma is hands down going to grand chapter in Orlando over the past summer. It was an incredible trip that I will never forget!

What do I feel my role is in STG? I feel like I have taken the role of creating new ideas, pursuing them, and making them come about smoothly. I have taken the responsibility that if something happens it will fall on me. Which makes me stay aware and prevent those things.

Kevin Mboyo

My name is Kevin Mboyo. I am 18 years old, originally from The Democratic Republic of Congo. I am the oldest out of 4 siblings, while I am the oldest. I have two brothers and two sisters. I moved to the United States when I was 5 years old. We moved to the United States to live a better life and to get a better education. From Congo, I moved to Champaign Illinois. I am majoring in Business Management, and I would like to work for a great business one day, and work my way up to the top of the food chain, where I can be manager or become a CEO.

Joining a fraternity was something that I've always talked about jokingly, not knowing that I would join a fraternity in the future. Joining a fraternity is not easy. You have to connect with the brothers and have things in common. This is how I joined Sigma Tau Gamma because I connected with the brothers and pledges quick. We also had a lot of things in common. Sigma Tau Gamma is a brotherhood that's meant to last forever, and to me it means to keep that brotherhood alive forever.

Robert James Ritter Jr

My name is Robert James Ritter Jr, and I preferred to be called Jimmy or James. I am 19 years old and was born on 09-09-1997, in Indianapolis, IN. I was raised in Chattanooga, TN. My biological parents are Martha and Robert. I have two twin sisters Yhani and Yhari; two half-brothers Dazhon and Ji'ale; three step sisters and three step brothers. Sports is everything to me and I played baseball, ran track, wrestled, played football and basketball. My mother ran track and played powderpuff. My dad also did football and played ball. Me and him are too much alike and that's why I will never call him my real father. I love cheetahs and dogs as well as bearded dragons. I went to college in 7th grade for art. I attended to Herron School of art and design. I graduated my junior year of high school and now have an art degree. I have been modeling for several years for different agencies. The beginning of 2016 I was model for Louie Tuxedo to advertise prom tuxedos. My pet peeves are when guys act like girls and girls act like a victim in every situation. I love food and will spend hundreds of dollars on it if I had the money.

I joined Sig Tau, because I knew they had potential to be great again, despite the little issues that they had or have. The fraternity reminded me of my hometowns football team. It was a mess and I was a part of something great it just needed a new foundation. That's the same thing I see in Sig Tau, we have potential and all want the same goal. We just need a new foundation. I want to be a part of something I know for sure I can make a new and improved organization. The brothers of the fraternity are already closer to me, than any of the guy friends that I have. I am the Vice President of my pledge class and the VP of Membership of the whole fraternity.

Vice President's Corner

This issue was focused on the Actives from the Fall of 2016. In our continued efforts to improve the communication between the actives and alumni, we felt we needed to start introducing the actives to the alumni. So we had the actives fill out the same "About Me" sheets that we all filled out when we were actives. The only difference is we have shared this information with the alumni.

I need content. No matter how small or long, if it pertains to our Actives or Alumni, I want it for the newsletter. So send the info to me on Facebook or send me an email: stgdeltatauchapter@gmail.com
